

19CE3861 – PROJECT PHASE - II

Course Category:	Program Core	Credits:	7
Course Type:	Project	Lecture-Tutorial-Practical:	0-0-14
Prerequisites:	Nil	Continuous Evaluation:	100
		Semester End Evaluation:	100
		Total Marks:	200

Course Outcomes

Upon successful completion of the course, the student will be able to:

CO1	Identify project by literature survey and gap analysis	K2
CO2	Conduct the necessary investigations/studies with available data	K3
CO3	Analyze using design guidelines/ mathematical tools or/and software tools	K4
CO4	Interpret the results and assess the usefulness of the work to the society	K5
CO5	Compile and communicate effectively and gain leadership/ entrepreneurship qualities	K6

Contribution of Course Outcomes towards achievement of Program Outcomes

1- Low

2-Medium

3-High

Course Content

The aim of Project work –II is to implement and evaluate the proposal made as part of Project Work - I. Students can also be encouraged to do full time internship as part of project work-II based on the common guidelines for all the departments. The students placed in internships need to write the new proposal in consultation with industry coordinator and project guide within two weeks from the commencement of instruction.

The department will appoint a project coordinator who will coordinate the following:

1. Re-grouping of students - deletion of internship candidates from groups made as part of project Work-I
2. Re-Allotment of internship students to project guides
3. Project monitoring at regular intervals

All re-grouping/re-allotment has to be completed by the 1st week of VIII semester so that students get sufficient time for completion of the project.

All projects (internship and departmental) will be monitored at least twice in a semester through student presentation for the award of sessional marks. Sessional marks are awarded by a monitoring committee comprising of faculty members as well as by the supervisor. The first review of projects for 30 marks can be conducted after completion of five weeks. The second review for another 30 marks can be conducted after 12 weeks of instruction and End Semester Project Evaluation will be for 40 marks just before the last instructional day of the semester, Common norms will be established for the final documentation of the project report by the respective departments. The students are required to submit draft copies of their project report within one week after completion of instruction.
