### INTELLECTUAL PROPERTY POLICY

### [Aadhya-Analytics]

Aadhya-Analytics is committed to a high level of legal and ethical standards in the conduct of our business. From here onwards company refers Aadhya-Analytics. It is the policy of the Company to compete fairly in the marketplace. Intellectual property of company is its trademarks, copyrights, patents, trade secrets and any other information related to its products, services and the Company in general that fall under intellectual property protective laws.

This commitment includes respecting the intellectual property rights of our suppliers, customers, business partners, competitors, and others, including independent service organizations. No Company employee, independent contractor, or agent should steal or misuse the intellectual property rights owned or maintained by Company or its Clients.

This Policy applies to all employees, independent contractors (Freelancers, Interns or any other organizations), agents, officers, and directors of the Company, its subsidiaries, business units, partnerships, and joint ventures where the Company has a majority ownership position or management control.

The Company is committed to protecting its own intellectual property, such as information, processes and technology from infringement by others. This would impact us to lose our competitive advantage and compromise our ability to provide unique services to our customers.

It is the responsibility of each and every employee of Aadhya Analytics to help protect Company intellectual property. It is the responsibility of Company managers and supervisors to foster and maintain awareness of the importance of protecting the Company's intellectual property.

The Company too committed to respect the intellectual property of others. The rules with respect to intellectual property, including misappropriation of business information, trade secrets (e.g., computer systems, software, and related knowhow) infringement of patents, services and copyrights are complex, so you should seek expert advice from the Company's attorneys to address specific issues that arise with respect to our business. In many instances the Company attorneys also can evaluate business information to help you avoid infringing conduct.

While collecting data from the Company, you have to use legal, ethical resources to prevent the tainting of Company operations with the improper introduction of the proprietary information. Substantial civil and criminal penalties may be levied for misappropriation of trade secrets that are avoidable through compliance with the Company's policies and consultation with the Company's attorneys.

### **Aadhya Analytics**

It is not improper to accumulate information concerning competitors and it is generally unethical or illegal to make use of the information as part of our business. Indeed, the Company or any other business could hardly go on without being able to use information it has developed regarding its competitors in order to analyse the marketplace and make informed business decisions. But care must be taken by all Company employees, independent contractors and agents to utilize only legitimate resources to collect information concerning competitors to avoid those actions which are illegal, unethical or which could cause embarrassment to the Company. When a situation is unclear, employees, independent contractors and agents should consult with Company management. Company management may in its discretion wish to further consult with the Company's attorneys.

Company employees, independent contractors, and agents having confidential information from a former employer may be bound by a nondisclosure obligation to the former employer. The Company expects employees, independent contractors, and agents to fulfil this obligation. The Company does expect its employees, independent contractors, and agents to use all information, which is generally known and used by persons of their training and experience and all information, which is generally known in the industry.

Any Employee of company regardless of role & responsibilities, have / had engaged in the past or in future either as a freelancer to some other company or individual person or working on their own product, which had same features or purpose as core functionalities of company products either in different technologies will be considered as infringement of company products for next 5 years.

Employee name printed on any documentation or software will considered as author of code or document and not as owner of the software or documentation.

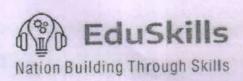

Documentation copied onto portable devices or accessing cloud based documentation or downloading software from GitHub on to a computing infrastructure which is not part of company would be tracked and considered as infringement.

DO NOT DIRECTLY OR INDIRECTLY SOLICIT, OBTAIN, OR USE COMPANY SECRET INFORMATION BELONGING TO OTHERS FROM JOB APPLICANTS, NEW OR EXISTING COMPANY EMPLOYEES, CONTRACTORS, VENDORS, CUSTOMERS, OR OTHER THIRD PARTIES. IF YOU BECOME AWARE THAT ANY COMPANY EMPLOYEE, INDEPENDENT CONTRACTOR, OR AGENT MAY BE USING OR DISCUSS COMPANY SECRETS OF HIS/HER FORMER EMPLOYER OR ANOTHER THIRD PARTY IN HIS/HER WORK FOR THE COMPANY, YOU MUST CONSULT WITH HR IMMEDIATELY.

Title of the Event	Two day workshop on "CYBER SECURITY"

	Indian Servers, Vijayawada
Brief Report on the Event	He told that Cyber security refers to the body of technologies, processes, and practices designed to protect networks, devices, programs, and data from attack, damage, or unauthorized access. Cyber security may also be referred to as information technology security is important because government, military, corporate, financial, and medical organizations collect, process, and store unprecedented amounts of data on computers and other devices. Elements of cyber encompass all of the following:  Network security: The process of protecting the network from unwanted users, attacks and intrusions.  Application security: Apps require constant updates and testing to ensure these programs are secure from attacks.  Endpoint security: Remote access is a necessary part of business, but can also be a weak point for data. Endpoint security is the process of protecting remote access to a company's network.  Data security: Inside of networks and applications is data. Protecting company and customer information is a separate layer of security.  Identity management: Essentially, this is a process of understanding the access every individual has in an organization.  Database and infrastructure security: Everything in a network involves databases and physical equipment. Protecting these devices is equally important.  Cloud security: Many files are in digital environments or "the cloud". Protecting data in a 100% online environment presents a large amount of challenges.

### DEPARTMENT OF INFORMATION TECHNOLOGY CERTIFICATION COURSE -ROBOTIC PROCESS AUTOMATION(RPAR

So the end of this Robotic Process Automation (RPA) Training course, the participants will acquire the practical and theoretical knowledge about RPA and tools. Understand Robotic Process Automation (RPA) and its value proposition.

### Course Objectives/Outcomes

### Students able to

- t. Understand Fundamentals of Robotic Process Automation
- 2. Learn Blue Prism Infrastructure setup
- 3. Create RPA solutions with Hlue Prism

Pre-Requisite: having basic knowledge of any programming language will be an added advantage.

Target Audience IV Year Students

Duration 40 Hrs

### Benefits of certification Course:

- It will help you a lot in improving knowledge about all the practical and advanced concepts of RPA.
- Knowledge of understanding the primary tools of RPA.
- It also imparts knowledge regarding the automation workflow and automation debugging
- Crasming both theoretical and practical knowledge to face real world challenges

### Course Content

SINO	Topic	No of Hours
1	Introduction to RPA, Introduction to Blue Prism.	3 Hrs
,	Installation and Configuration	5 Hrs
- 1	Process Studio	8 Hrs
,	Working with web applications	8 firs
	Object Studio	6 Hrs
	Exception Handling	4 Hrs
	Debugging Basics	6 Hrs
	Total Hours	40 Hrs
