**SUMMARY REPORT ON EVENT ORGANIZED**  
**Academic Year 2020-21**

Date of Event Organized	04.08.2020
Title of the Event	How To Crack The TCS CODEVITA
Resource Person Details	Mr.M. Mallikarjuna, Freelance Technical trainer, Hyderabad
Brief Report on the Event:	<p>He told that if you are looking to <b>crack all the 3 rounds with a good position</b>, you really need to work hard on your competitive coding skills. Pick up any language you like working on. <b>Start with Hackerearth or Hackerrank</b>. Next jump to other platforms to further brush up your coding and problem solving skills. Practice DSA a lot. Continuous practice will no doubt make you an excellent programmer to solve its questions. <b>Please Note:</b> You really need to <b>work a lot hard if you really want to crack the competition</b>.</p> <p>If you are looking to <b>crack only the first round</b> so as to solve 2-3 questions and get a chance to interview directly in TCS, then the practice level decreases a lot. To start with your main focus should be on Arrays. As it will alone solve around 2 of your questions. But you should have problem solving skills as this is again the most important skill. <b>Practice DSA, start with Hackerearth. This really is a very good platform if you want to start competitive programming.</b> Practicing for around 2-3 months will surely do the job. You will easily clear your first round of TCS codevita. You can also move on Dynamic Programming, Greedy Algo, etc. if you really want to be among the top scorers.</p>

Resource Person Details	Mr. K. Venkata Sai Nadh, IT Development Manager, Maganti IT Solutions Pvt. Ltd, Vijayawada
Brief Report on the Event	<p>He told that You might think of an entrepreneur as someone who starts or runs a small business, but there's more to it than that. At a fundamental level, entrepreneurship is about identifying opportunities and taking on risks to fill them. Entrepreneurs as a class tend to be excited by (rather than afraid of) the challenges that come with solving problems that have never been solved. If you want to become an entrepreneur remember the following points</p> <ul style="list-style-type: none"> <li>• Identify a problem that you feel driven to solve.</li> <li>• Consider your role as founder.</li> <li>• Don't go it alone.</li> <li>• Determine how you'll add value to people's lives.</li> <li>• Take the plunge.</li> </ul>
