CIRCULAR

PVPSIT/CSE/CIR./2022

DATE: 22-03-2022.

Stanford University's Hasso Plattner Institute of Design (d.school) is offering University Innovation Fellow Program for students around the world. So all II & III B. Tech students who are interested to join or know about the program assemble in the first floor seminar hall by 4:00 pm.

Agenda:

1. Importance of UIF.
2. Application process for 2022.
3. Training and other aspects of UIF.

Coordinator (UIF):

Mr. A. Prashant, Asst. Prof., Dept. of CSE, 8019709941

Dear Sir/Madam,

Sub: Institution Letter of Support for UIF program. Regd.

I write to express the decision of the Management Board to sponsor and support the application of four students of our college for the University Innovation Fellows by Stanford University.

I am aware that our students Dhanya Sree Tottempudi, Veena Sree Sai, Pilli Naga Raghavendra and Sri Chandan Vallabhaneni will participate in a leadership programme where they engage themselves in innovative thinking. I appreciated the initiative of Stanford University in involving students in the process of finding new ideas for growth and development of the societies.

I can assure you that the college will provide all the necessary resources to facilitate the training and further activities of the programme. I can assure you that the students selected for this programme will be mentored by senior faculty members.

I would like to assure you that the college very firmly believes that this programme will bring remarkable change in the attitudes of the students towards the problems they face. I believe that they will be able to think differently, share their ideas with others, and encourage their peers to think for the greater common good.

I am confident that the exposure these students get at Stanford University will help them emerge with leadership skills that they leverage to motivate their peers and juniors.

Best Regards,

(Dr. K. Sivaji Babu)

UNIVERSITY INNOVATION FELLOWS PROGRAM

University Innovation Fellows (UIF) program by Hasso Plattner Institute of Design at Stanford University empowers students around the world to become agents of change in higher education. Fellows create opportunities that help their peers unlock their creative potential and develop the design-centered mindset required to take on complex challenges in today's world.

The application to this program got initiated in the month of May 2022. Applications for the UIF program are team-based by school. Schools new to the UIF program are limited to one leadership circle (max of 4 students) for the first training cohort.

They select students who have a genuine desire to create lasting institutional change that increases the number of students exposed to entrepreneurship, innovation, creativity, and design thinking. The Fellows they select are action-oriented, insightful, mature and passionate. They possess a great, positive attitude as well as strong execution and strategic thinking abilities, and they are willing and eager to learn.

From our college four students from Department of CSE have taken initiative to be part of this program.

- Dhanya Sree Tottempudi, III CSE S3, 20501A05G9
- Sri Chandan Vallabhaneni, II CSE S3, 21501A05G6
- Veenaa Sree Sai Namana, III CSE S3, 20501A05D0
- Naga Raghavendra Pilli, III CSE S3, 20501A05E7

They have filled the applications and attended the interview on June 22nd 2022 through online video conference in order to be eligible for the program. The cost of the program is \$4000 of which \$2000 is funded by the college. All the four students got selected for the program on July 12th 2022. The seven week training program started on August 29th 2022 and ended on October 16th 2022. During this training period they are given tasks to complete and present their work.

They are guided and mentored by:

UIF Guide

- Ms. Apoorva Singh

Faculty Champions

- Mr. A. Prashant, Asst. Prof., Dept. of CSE,
- Dr. A. Jayalakshmi Prof & Head Dept. of CSE,
- Mr. L.V. Krishna Rao, Asst. Prof., Dept. of CSE,
- Mr. B. Vishnu Vardhan, Asst. Prof., Dept. of CSE.

Students are been trained in the following areas as part of this program:

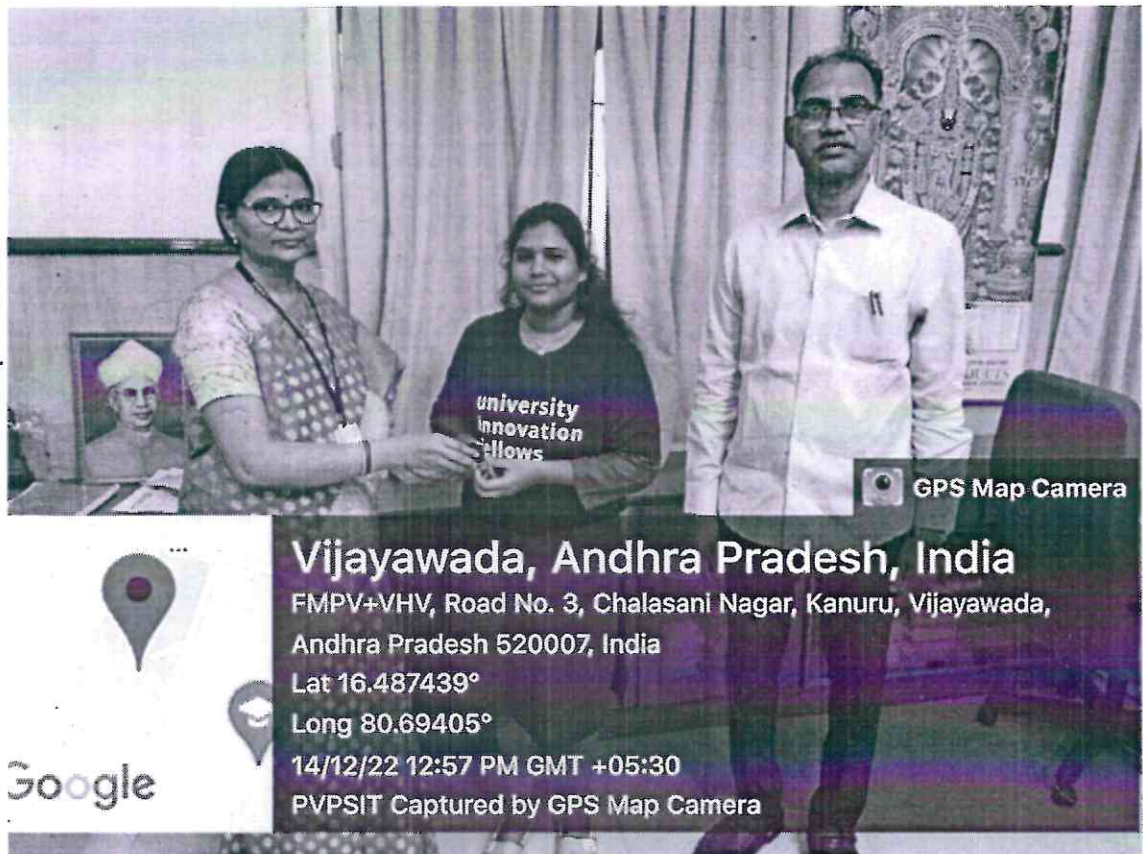

- Design Thinking - approach used for practical and creative problem-solving.
- Landscape Canvas - Mapping the Innovation & Entrepreneurship (I&E) Landscape of the school that exists.
- Strategic Priorities – Innovative methods identified by the students to improve the Innovation & Entrepreneurship (I&E) Landscape of the school.
- Change Model Canvas – Using Mural tool they describe their ideas.
- Story Telling – Using presentation and videos they deliver the outcome of their work and discuss with the stake holders of their school.

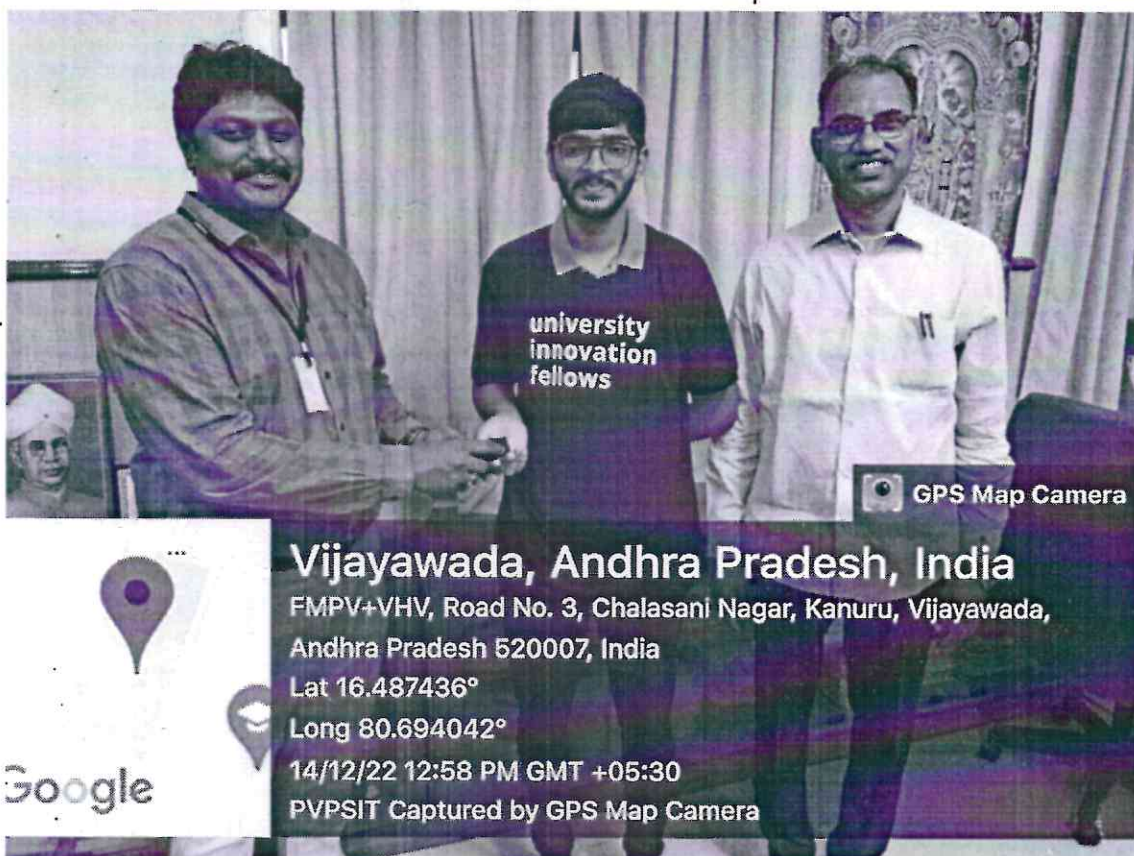

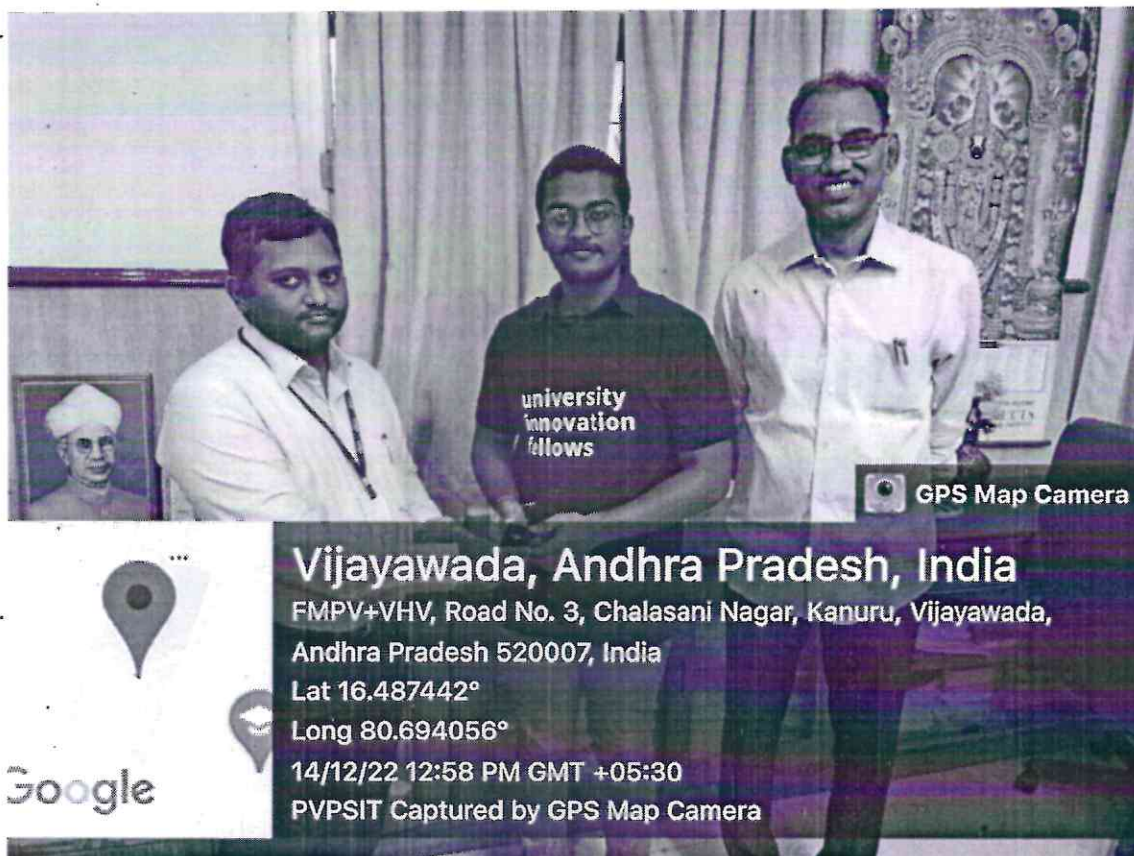

The students have submitted their work before the deadline every week and got the feedback of their work from the UIF Guide through meetings held on Zoom. At the end of their program they submitted their entire work and got evaluated. On October 25th 2022 they are recognised as University Innovation Fellows! by Hasso Plattner Institute of Design at Stanford University.

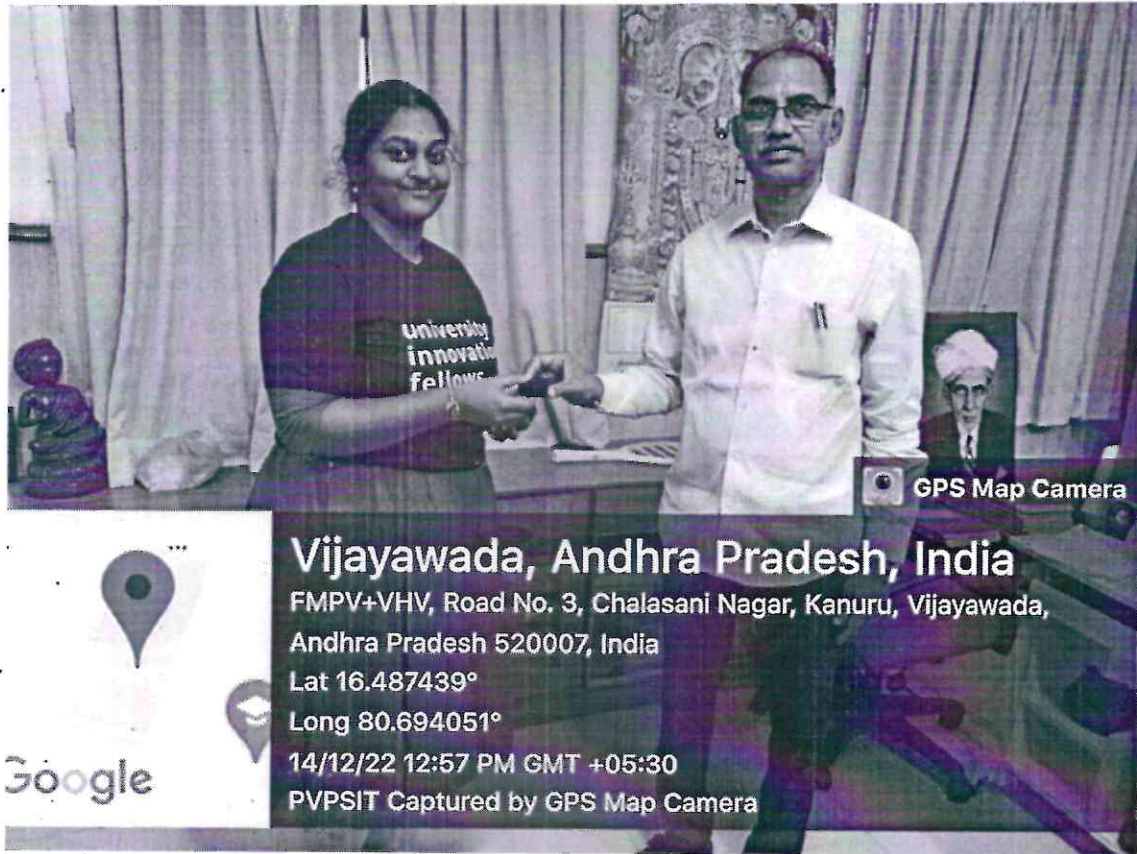

The students are felicitated by the stakeholders of the school during the Pinning Ceremony held on December 14th 2022 at the Principals Office.

Dear University Innovation Fellows Faculty Champion,

On behalf of the whole team at Stanford University's Hasso Plattner Institute of Design (d.school), we wish you and your students congratulations on the completion of the University Innovation Fellows training! For each cohort, we present new Fellows with small UIF pins to recognize their efforts in driving this global movement. We intend this pin to represent the support of Stanford's d.school and the University Innovation Fellows team and to act as a symbolic reminder to each Fellow that he or she belongs to a community of like-minded change agents.

To honor the commitment of these students, we ask you to work with your new Fellow/s to hold a pinning ceremony on behalf of the University Innovation Fellows team. This ceremony can take any form (in person or digital) depending on your group's desires and comfort with social gatherings. In past cohorts, this ceremony has provided a way for Fellows and their champions to shine a spotlight on their collaborative work and share their efforts with other students, faculty and administrators (see photos from past ceremonies included in this document and at <http://bit.ly/UIF-pins>).

This kit contains a pin for each Fellow at your school as well as the pinning ceremony suggestions on the following page. The kit also contains a UIF t-shirt for each of your Fellows and for you! The sizes are based on their application materials. If you or any of your students need a different size, please email Laurie at laurie@universityinnovation.org.

If you'd like to print and hang the University Innovation Fellows manifesto or if you would like any other branding materials such as banners, presentation templates and t-shirt designs, these files are available online in the "UIF Branding and Identity Kit" section at <http://universityinnovationfellows.org/login-2/> (password: changeagent).

We are excited to see the impact that you will have at your school and beyond!

Best,

The University Innovation Fellows team

Dear Dhanya Sree, Naga Raghavendra, Sri Chandan, Veenaa Sree Sai,

Congratulations on becoming a University Innovation Fellow! We commend you on your hard work throughout training. You have invested a significant amount of time mapping your campus landscape and building strategies for change that are relevant to your school.

Here's a message from the program team: <https://youtu.be/MS44I5M0RIY>

As you heard from us in the video, now, your work really begins. We can't wait to hear about the progress you make on your projects. In April 2023, we'll send you an "Impact Update" survey to share your accomplishment updates with us. We will publish a collection of these project stories in the annual [UIF print journal Change Forward](#).

We'd also like you to take a moment to celebrate your teamwork and effort. There aren't many students who have done something like this, and you're about to embark on an even greater journey with other Fellows, Faculty Champions and collaborators. We've found that the more time you spend on your relationship as a team, the more successful you'll be with your projects. So, make time this week or next to have for a digital dinner together or celebrate in some way as a team.

Speaking of your team, don't forget to join the [UIF closed Facebook group](#) to access your new global team of 2,800+ Fellows! Faculty, we've got a [closed Facebook group](#) for you as well, where you can meet other seasoned Faculty Champions.

We have organized important next steps and helpful information on the Fellows website: [Welcome to the University Innovation Fellows Program!](#) Enter the password “changeagent” to be granted access. This page contains the following information:

[The big picture](#)
[Staying connected](#)
[Opportunities for future engagement](#)
[Info for Faculty Champions](#)
[Pinning kit and ceremony](#)
[Campus communications](#)
[UIF style handbook and identity downloads](#)
[Feedback wanted](#)

Three things that deserve your special attention.

OUTREACH: Tomorrow, we will be reaching out to your campus communications office to announce your new role as a University Innovation Fellow. We will copy you and your Faculty Champion(s) on the email. We thank you for your patience in keeping this announcement under wraps until you receive this email.

SILICON VALLEY MEETUP: We are planning to hold the Silicon Valley Meetup from March 24-26, 2023. We suggest that you start making plans for your trip to Silicon Valley. If you are a student from outside the United States and are applying for a visa, please submit your details [here](#) and we will send you a Support letter which you can submit along with your other visa documents.

SURVEY: We are interested in your feedback and ideas about training. To that end, please be on the lookout for a survey that we will send you in the next few days. Your feedback helps us improve the experience for future candidates and demonstrate the impact to Stanford.

On behalf of the entire team, congratulations once again and welcome to the University Innovation Fellows family!

Warmly,
Humera, Leticia, Laurie, Lupe & Ghanashyam
