Importance of the topic

The IQAC wishes to organize a seminar on Patents for the faculty in the college.

The main aim of organizing this seminar is

1. To provide the faculty with the basic information about protecting intellectual properties that result from their scientific and creative activities.
2. To help faculty understand the benefits they obtain when their intellectual property is patented and licensed to a commercial establishment.
3. To transfer the technology to the industry and build positive relationships with companies.
4. To promote faculty and student research activities.
5. To provide an aid for the development of basic science research programs.
6. To promote entrepreneurial culture in the college.

All inventions made during the course of an inventor's activities as an employee of the PVP Siddhartha Institute of Technology be formally reported to the SAGTE Research Foundation.

Details of the talk:

1. Topic : Inventions and its Protection (2hr)

Topics covered in the talk are:

- Objective of IP Management & Consulting
- Research -> Inventions -> Patent
- Definition of Intellectual Property
- Invention Protection
- What is patent & What can be patented?
- Conditions of Patentability
- Why should you consider patenting your inventions?
- Emerging area of technology
- Licensing of IP
- IP Cell@ PVP : Roadmap
- Roadmap : Patent portfolio @ PVP
- Roadmap : Revenue generation from monetization of patent @PVP
- Benefits of IP Initiative
- The Way Forward for Institutions – PVP

2. Topic : Invention based research in Institutions (1 hr)

Participants : All Faculty Members and Research Scholars of PVP Siddhartha Institute of Technology
