

## Probability & Statistics

### SYLLABUS

PVP-23

|                                       |               |                                |       |                      |                               |
|---------------------------------------|---------------|--------------------------------|-------|----------------------|-------------------------------|
| <b>Course Code</b>                    | 23BS1402      | <b>Year</b>                    | II    | <b>Semester</b>      | II                            |
| <b>Course Category</b>                | Basic Science | <b>Branch</b>                  | CSE   | <b>Course Type</b>   | Theory                        |
| <b>Credits</b>                        | 3             | <b>L-T-P</b>                   | 3-0-0 | <b>Prerequisites</b> | Basic concepts of probability |
| <b>Continuous Internal Evaluation</b> | 30            | <b>Semester End Evaluation</b> | 70    | <b>Total Marks</b>   | 100                           |

#### Course Outcomes

Upon successful completion of the course the student will be able to

|     |  |
|-----|--|
| CO1 | <b>Understand</b> the basic concepts of probability and statistics(L2).  |
| CO2 | <b>Calculate</b> the measures of central tendencies, correlation and regression to the given data and apply appropriate probability distributions to the given problem (L3). |
| CO3 | <b>Apply</b> the concepts of testing hypothesis for large and small samples(L3).   |
| CO4 | <b>Analyze</b> the concepts of probability, correlation and regression to real life problems(L4).  |
| CO5 | <b>Analyze</b> the given data and identify appropriate test statistic to test given hypothesis for statistical decision(L4).   |

#### Contribution of Course Outcomes towards achievement of Program Outcomes&

**Strength of correlations (3:High, 2: Medium, 1:Low)**

|     | PO1 | PO2 | PO3 | PO4 | PO5 | PO6 | PO7 | PO8 | PO9 | PO10 | PO11 | PO12 |
|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|------|------|------|
| CO1 | 2   |     |     |     |     |     |     |     |     |      |      |      |
| CO2 | 3   |     |     |     |     |     |     |     |     |      |      |      |
| CO3 | 3   |     |     |     |     |     |     |     |     |      |      |      |
| CO4 |     | 3   |     |     |     |     |     |     |     |      |      |      |
| CO5 |     | 3   |     |     |     |     |     |     |     |      |      |      |

#### Syllabus

| Unit No. | Syllabus   | Mapped CO's  |
|----------|--|--------------|
| 1        | <b>Measures of Central Tendency and Probability:</b><br><b>Measures of central tendency:</b> Mean, Median, Mode<br><b>Probability:</b> Probability axioms, addition law and multiplicative law of probability, conditional probability, Baye's theorem (without proof).  | CO1,CO2, CO4 |
| 2        | <b>Random Variables and Probability Distributions:</b><br>Random variables (discrete and continuous), probability density function, probability distribution-Binomial, Poisson and normal distribution-their Properties(without proof), mathematical expectation and variance.   | CO1,CO2, CO4 |
| 3        | <b>Correlation, Regression:</b><br>Correlation, correlation coefficient, rank correlation, regression, lines of regression, regression coefficients, principle of least squares and curve fitting (straight Line, parabola and exponential curves).  | CO1,CO2, CO4 |
| 4        | <b>Testing of Hypothesis and Large Sample Tests:</b> Formulation of null hypothesis, alternative hypothesis, the critical region, two types of errors, level of significance. <b>Large Sample Tests:</b> Test for single proportion, Difference of proportions, test for single mean and difference of means. Confidence interval for parameters in one sample and two sample problems | CO1,CO3, CO5 |
| 5        | <b>Small Sample Tests:</b> Student t-distribution(test for single mean, two means and paired t-test), testing of equality of variances (F-test), $\chi^2$ -test for goodness of fit, $\chi^2$ - test for independence of attributes.   | CO1,CO3, CO5 |

## Learning Resources

### Text Books

1. S.C.Gupta and V.K.Kapoor, Fundamentals of Mathematical Statistics, 11/e, Sultan Chand & Sons Publications, 2012.
2. Miller and Freunds, Probability and Statistics for Engineers,7/e,Pearson,2008

### Reference Books

1. S. Ross, A First Course in Probability, Pearson Education India,2002.
2. Dr.T.K.V. Iyengar, Dr. B. Krishna Gandhi, S. Ranganatham, Dr.M.V.S.S.N. Prasad, Probability& Statistics, Publications: S. Chand, 4<sup>th</sup> Revised Edition, 2012.
