- **Industry Linkage**

Industry Institute Interaction:

Objectives:

1. To strengthen Industry – Academia partnership
2. To give more practical orientation to the Teaching-Learning process
3. To enhance the employability potential

The context:

A favourable environment is to be created for the student to motivate him towards innovation and invention. The student should be endowed with the required skill set to address the Technological problems confronted by the future society. Students should have adequate exposure to the Industries.

The Practice:

The Institution has entered into MOUs with reputed Industries. Students are sent on Industrial visits. Opportunities for internships are provided. Guest Lectures by eminent persons from Industry are arranged. Workshops in collaboration with Industries are held. Value added courses are conducted. Company specific training is provided.

Incubation centre is established. The faculty are encouraged to apply for provisional patents. Idea contests are held. Students participated in Hackathons.

Evidence of Success:

Guest Lectures/Seminars by Industry experts

Increase in the number of Internships

Introducing Value added Courses

Enhanced Employability skills

Faculty applying for provisional patents

Revision of curriculum

The major companies like TCS, Cap Gemini and Tech Mahindra have visited the Institution for campus recruitment drives.

Problems encountered and Resources required:

- Due to time constraint of Industrialists, difficulty is experienced while drawing Resource Persons.
- Sophisticated equipment had to be procured to conduct certain experiments which involved advanced technologies.
- The procurement procedures were time consuming in establishing collaborative Laboratories.
