Guest Lecture: "Mental Health and Drug Abuse"

A guest lecture on **"Mental Health and Drug Abuse"** was conducted on 14.07.2025 at PVPSIT, Auditorium with the aim of spreading awareness among students about the psychological impact of substance abuse and the importance of mental well-being.

The session was delivered by **Ms. Harshitha Talasila**, Student Body President, Colgate University a renowned expert in the field of psychology and rehabilitation, who brought extensive experience in mental health counseling and addiction recovery. The lecture focused on the close interconnection between mental health challenges and drug abuse, highlighting how each can be both a cause and a consequence of the other.

Key topics covered during the session included:

- Understanding mental health and its importance
- Common mental health disorders among youth
- Causes and effects of drug abuse
- Early warning signs of addiction
- The psychological, social, and physical consequences of substance abuse
- Strategies for prevention, early intervention, and seeking help
- Available support systems and rehabilitation resources

The session was interactive and engaging, with real-life case examples and an open Q&A that encouraged active student participation. Students gained valuable insights into how stress, peer pressure, and emotional imbalance can lead to substance use, and how timely support can make a significant difference.

The lecture concluded with a strong message emphasizing self-care, emotional resilience, and the importance of seeking help without stigma. The event was well-received by attendees, who appreciated the informative and empathetic approach of the speaker.

The session was addressed by **Dr. Meena Medikonda**, a distinguished **psychiatrist** at Latha Super Speciality Hospital, Vijayawada, with 9 years of experience in treating mental health disorders and addiction-related issues. The lecture offered deep insights into the psychological aspects of drug dependency and its impact on emotional and cognitive functioning.

During the session, **Dr. Meena Medikonda** discussed the following key points:

- The definition and significance of mental health
- Common mental health challenges faced by adolescents and young adults
- The psychological triggers and consequences of drug abuse
- The link between untreated mental illness and substance dependency
- Recognizing signs of emotional distress and addiction
- Strategies for prevention, early intervention, and recovery
- Role of family, peers, and counseling in mental health support

The lecture was highly informative and sensitized the audience to the dangers of ignoring mental health concerns. It also dispelled myths surrounding psychiatric care and encouraged students to seek professional help when needed, without stigma or fear.

The interactive Q&A session allowed students to clarify their doubts and express concerns, making the event highly engaging and meaningful.

Outcome:

The session created much-needed awareness on the interrelated issues of mental health and drug abuse. It encouraged students to adopt a proactive approach to emotional well-being and empowered them with knowledge to support themselves and others in distress. The lecture successfully created awareness among students about the dual issues of mental health and drug abuse. It encouraged a healthy dialogue on emotional well-being and reinforced the importance of mental health support services within educational institutions.
